## September Presentation – About our Presenter

Award-winning Los Angeles based photographer Amy Cantrell has mastered the lighting skills necessary to obtain the most dynamic and flattering images of her subjects. Her proven method has landed her coveted photo shoots with some of Hollywood's most legendary celebrities.

Cantrell has managed to carve out quite a diverse career by following her heart and applying the passion with which she began her career to each phase of her evolution. Amy's obsession with photography started in high school photographing rock concerts. The unpredictability of a live show and capturing the passion of the music on film laid the foundation that would dominate her work. Her "celebrity clientele" includes Magic Johnson [one of 3 covers she shot for Entrepreneur Magazine], James Earl Jones, Wolfgang Puck, the late George Burns, the young Jessica Alba and many more.

Once she began to see wedding photography as art, her evolution into a sought-after wedding photographer came naturally. Her comfort with the unexpected and her ability to manipulate what the situation dictates, allowed her to develop a style that combines a perfect blend of photojournalism and portraiture. She has photographed weddings in such diverse locations as Slovakia, Puerto Vallarta, Yosemite, Texas, and at Castle Ashby in England.

A strong supporter of Professional Photographers of Los Angeles County, Amy served two years as President and another 6 as membership chair and Vice-President, during which she was honored with the "President's Award" three times "for outstanding contribution and guidance". She is a proud recipient of the "Photographer of the Year Award" and many other awards for her photographs.

## September is Digital Review Month!!

### Digital Uploading Instructions

- After logging on to the SBCC website use My SBCC drop down on upper right corner and select Upload Photos.
- From there select Upload for Digital Evaluation.
- The next window is the Photo Information Page. You can fill out as much as this information as you like but it DOES REQUIRE your Name at the top (if it doesn't fill it in automatically) and an Image Title.
- At the bottom you can select the box to mark as a make-up image and or to add a 2 Pixel Border around your image. After this step, DO NOT HIT the RETURN or ENTER key, but instead LEFT CLICK the Submit Photo Information button to continue on to the UPLOAD PICTURE page.
- On this page use the Browse button in the lower right-hand corner to select the image from your picture that you want to upload. Once you have selected the image and the path to it shows in the window next to the Browse button, you left click on the Upload This Image button.

- When the image is uploaded it will appear in the blank window under the Upload Picture title of the page.
- If on the Photo Information page you inadvertently hit a enter key instead of left clicking on the Submit Photo Information box here is how you fix that problem. You need to delete the photo that does not show an image.
- Deleting unwanted images: On the My SBCC drop down on upper right corner and select Show/Edit/Delete Photos from there select either Digital or Print Photos. The next screen will show you all the images you have uploaded with an Edit or Delete selection below it. At this point you can delete any Photo that does not contain an image.
