27 Program: "Effective Cropping" Slides by Joyce Fish, digital editing by Bob Houston

## FROM THE PRESIDENT

Amid controversy based upon the new officers' break from the traditional schedule format, the SBCC enters the digital world this month. We have had excellent digital prints for a long time, as well as darkroom prints in our contests. That will resume in the September 22<sup>nd</sup> meeting, along with a new feature, digital image projection. Members will see their prize photos on the big screen, undistorted by the printing process. To prepare for that, an instruction session will follow the introduction to our new website in the September 8<sup>th</sup> club meeting.

I am sure that members and guests will be interested in the future of still photography.

---

I received a box full of archive photos of club social activities as part of my transition to the office as President. I will bring these to the September 8<sup>th</sup> meeting for perusal before the meeting starts and during the break. I promise an extended break for this purpose. I am sure that many members also have old photos in their files which would bring back memories of past club picnics and parties. Please bring those also, for we plan to reinstate the office of Historian soon.

Bob Houston, President

1:30 PM Computer and digital imaging

Preregister: call Rial at (323) 467-8363

---

## HELEN'S WORKSHOP

Helen Weinman conducts workshops for slide and print makers at her home. Members show photos planned for competition and critique those of other members. Helen's own experience as one of the club's best photographers and darkroom print makers gives added value to the evaluations.

Call Helen at (310) 371-2263  
September workshops will be held  
Wednesday, September 3, and September 10  
at 7:30 PM.
