April is Digital Review Month!! – About our Reviewer

Michael Gordon will be our critique for April. Michael E. Gordon is an award-winning fine art landscape photographer best known for his black and white '[Desert](#)' series which, says Broughton Quarterly, portrays "*stunning ethereal beauty from terrain where others see only a bleak landscape.*" A lifelong student of nature and wilderness, Michael's intimate relationship with the natural world yields quiet images of depth and discovery. His website is at <http://www.michael-gordon.com/>

Digital Print Uploading Instructions

- After logging on to the SBCC website use “My SBCC” drop down on upper right corner and select Upload Photos
- From there select either “Upload for Digital” or “Upload for Print Evaluation”.
- The next window is the Photo Information Page. You can fill out as much as this information as you like but it DOES REQUIRE your Name at the top (if it doesn't fill it in automatically) and an Image Title. If this is a Print Image, when you upload it take note of the assigned image number, and mark it on the back of your Print.
- At the bottom you can select the box to mark as a make-up image and or to add a 2 Pixel Border around your image. After this step, DO NOT HIT the RETURN or ENTER key, but instead LEFT CLICK the Submit Photo Information button to continue on to the UPLOAD PICTURE page.
- On this page use the Browse button in the lower right-hand corner to select the image from your picture that you want to upload. Once you have selected the image and the path to it shows in the window next to the Browse button, you left click on the Upload This Image button.
- When the image is uploaded it will appear in the blank window under the Upload Picture title of the page. If this is a Print Image, when you upload it take note of the assigned image number, and mark it on the back of your Print
- Deleting unwanted images:
- If on the Photo Information page you inadvertently hit a enter key instead of left clicking on the Submit Photo Information box here is how you fix that problem. You need to delete the photo that does not show an image.
- On the My SBCC drop down on upper right corner and select Show/Edit/Delete Photos from there select either Digital or Print Photos. The next screen will show you all the images you have uploaded with an Edit or Delete selection below it. At this point you can delete any Photo that does not contain an image.
